Call for Nominations - Rising Stars in Reproductive Biology

Do you know an up-and-coming member of the SSR community who is making an impact in their field? SSR and the SSR Virtual Education Committee encourage you to nominate them (self-nominations are welcome) to participate in our upcoming **Rising Stars in Reproductive Biology Webinar Series!** This series is designed to introduce and highlight research from new investigators to the SSR membership and broader reproductive biology research community. Nominations will be open from now through **Friday, September 15th**.

Those who are selected as rising stars will have the opportunity to give a webinar for the SSR community in early 2024. We are excited to hear more about your novel work - submit your nominations below.

FASEB CARES (Career Advancement and Research Excellence Support)

FASEB CARES, a component of FASEB's Diversity, Equity, Accessibility, and Inclusion initiative, provides financial support to alleviate burdens associated with caregiving—enabling researchers at FASEB member societies to continue their scientific training, professional development, and career progression.

Recipients are awarded \$5,000 based on their need and are limited to one application per application cycle.

Applications will be accepted beginning **September 18 - October 27, 2023**.

BIOLOGY OF REPRODUCTION

August Editor's Choice

Don't miss the Editor's Choice research in BOR, "Insulin-like growth factor 1 promotes the gonadal development of *Pampus argenteus* by regulating energy metabolism." Yaya Li et al find that *Igf1* regulates gonadal energy metabolism to

promote vitellogenesis and sperm meiosis, and its role in the gonad is modulated by E2.
