

Biology of
Reproduction (BOR):

**OFFICIAL
JOURNAL
OF SSR**

MOST HIGHLY CITED JOURNAL

for basic research in the reproductive sciences*

- Highest number of citations
- Highest current impact
- Highest 5-year impact

* ISI, JCR Science Edition

COVERS ALL ASPECTS OF REPRODUCTION:

- Behavior
- Embryo
- Environment
- Gamete biology
- Immunology
- Male & female reproductive systems
- Mechanisms of hormone action
- Neuroendocrinology
- Pituitary
- Pregnancy
- Reproductive technology
- Toxicology

SUBMIT YOUR BEST WORK!

<http://submit.biolreprod.org>

Online content available on multiple devices;
full print service on demand.

SSR is excited to announce we are dropping standard page charges. This will make publishing behind the paywall FREE for SSR members (charges still apply for Open Access) beginning with submissions after 1 January, 2024.

VISION

A Sustainable World
through the Science of
Reproduction, Fertility,
and Development

MISSION

To Advance the Science of
Reproduction, Fertility, and
Development for the
Benefit of Humans and
Animals

401 Edgewater Place
Suite 600
Wakefield, MA 01880

WHO WE ARE

The Society for the Study of Reproduction (SSR) was founded in 1967 to promote the study of reproduction by fostering interdisciplinary communication among scientists, holding conferences, and publishing meritorious studies, and contributing to the development and mentoring of young scientists.

Today we are a global association of more than 1200 active members, including scientists, veterinarians, students, and physicians, representing over 50 countries. Some members are engaged in basic or applied research, while others perform clinical practice. All are dedicated to advancing knowledge of reproductive processes in animals and in humans.

SSR members have made key contributions in stem cell biology, transgenesis, treatment of infertility, contraception, livestock production, pregnancy health, treatment of reproductive system cancers, and identification of environmental contaminants.

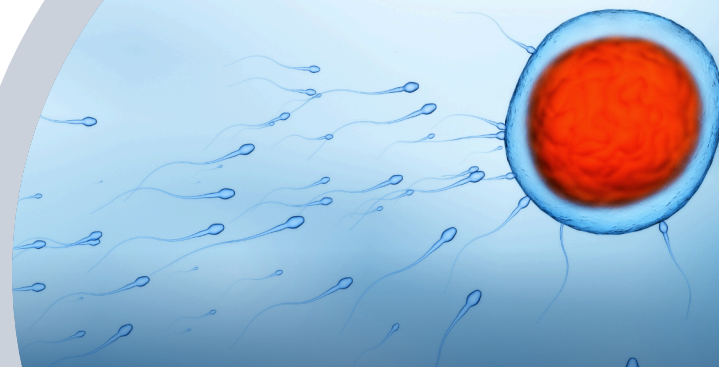

SSR members are internationally recognized. They include members of the **U.S. National Academy of Sciences** and recipients of the **Lasker Award**, the **Wolf Prize**, the **Grand Prix Charles-Leopold Mayer**, and the **International Prize for Biology**.

“I joined SSR as a PhD student to present my research at the Annual Meeting and to have it published in the BOR. Now as a clinician and a PI, I encourage my students to participate for the presentation, awards and grant opportunities and for the access the Annual Meeting provides to researchers of the most authoritative, cutting-edge reproduction research.”

— **Makoto Orisaka, PhD, MD**
University of Fukui, Japan

MEMBERSHIP BENEFITS

- No BoR Page Charges for SSR members
 - Free standard license publication in BOR — members can publish their work behind the subscriber paywall at no charge.
 - Authors interested in publishing with an open access license will continue to be charged the discounted member rate.
 - Benefit applies to all papers with first submission date of January 1, 2024 or later.
 - The SSR member must be the corresponding author on the paper.
- Discounted registration to SSR's Annual Meeting
- FREE Access to BOR – SSR members receive free, direct online access to the society's journal, *Biology of Reproduction*.
- SSR Podcast Series – The Future Conceived – hear about emerging sciences, cutting edge techniques, investigators from around the world, untold stories about our annual conference and more.
- SSR Online Job Board – now featuring personalized job search functionality, job alerts, career resources, and, for employers, simplified job posting.
- Tangible Support for Early Career Scientists – Including SSR's new Emerging Investigator Grant Award.
- Representation at industry events – SSR has been advocating for its members at more industry events than ever. In 2023 we attended ASRM, ESHRE, CFAS, IFFS and met with attendees and leaders to brainstorm new ways we can collaborate.
- Gates 2024 – We are launching new programs in 2024 with a symposium in March and course in India in October
- Fresh website and improved member experience – SSR is committed to making continued advances and improvements for its members.
- FASEB Membership – Through your membership with SSR you have access to all that FASEB (Federation of American Societies for Experimental Biology) offers.

AN EMPHASIS ON TRAINEES

Postdoctoral fellows, graduate students, and undergraduates are welcomed as Trainee members.

SSR currently has more than 400 trainee members. In addition to receiving discounts on meeting registration, trainee members are eligible for travel grants and may compete for presentation awards.

Trainee members plan, organize and supervise numerous activities including a Career Consultation Center and Facebook group as well as an Annual Meeting forum/symposium, Mentor-Trainee Luncheon, grant workshop and much, much more!

Trainees participate as decisionmakers on SSR committees and the Board of Directors.
