NEWS & UPDATES

The 2023 Elections are Closing in TWO DAYS

The SSR 2023 Board of Directors Elections and the Trainee Representative Elections will be closing on **Friday, April, 14, 2023**. Members should have received an email from ssr@simplyvoting.com last week with their individual Elector ID and Password, and a link to access the applicable ballot. If you did not receive either ballot, please contact administrator@ssr.org. Use your voice - cast your votes prior to Friday!

Apply for the 2023 Burroughs Wellcome Fellowships

Applications for the 2023 SSR Burroughs Wellcome Fellowships will close in **less than two weeks**. Follow the application steps using the links below:

[Trainee Application](#)

[Junior Faculty Application](#)

As a reminder, underrepresented minority trainees and junior faculty are invited to apply for the travel fellowships (supported by Burroughs Wellcome Fund) to attend the SSR's 56th Annual Meeting. Applications are due by **April 24, 2023**.

**If you apply, please wait to register for the annual meeting until after you receive notice of your award status.*

Nominations Requested for the 2023 RV Short Medal and Lecture

The Society for Reproductive Biology (SRB, Australasia), the Society for Reproduction and Fertility (SRF, UK) and the Society for the Study of Reproduction (SSR, North America) are delighted to announce the RV Short Medal and Lecture as an exciting new initiative to recognize emerging early career researchers across the globe. Roger Short was an inspirational reproductive biologist and his depth of insight into so many aspects of reproductive biology research was truly astonishing. Throughout his career, Roger was hugely supportive of early career researchers and this award is designed to recognize emerging research leaders that possess the same spirit of discovery, creativity, and imagination as Roger himself.

The initiative has been developed by Marilyn Renfree, Jock Findlay, and the Presidents/Chairs of the SRB, SRF and SSR. Further information on the award, the criteria, and the process by which you can nominate can be accessed [here](#). The RV Short Medal and Lecture will be awarded annually to an innovative young researcher who has made outstanding discoveries in the field of reproductive science within a period up to 10 years of establishing their independence.
