IMPORTANT REMINDERS

DEADLINE EXTENDED: Apply by August 18th for a Fully-Funded Week-Long Training in Mumbai!

Hands-on Workshop on Female Contraception

Thanks to funding by the Gates Foundation, the Society for the Study of Reproduction (SSR) and Frontiers in Reproduction (FIR) are excited to offer an opportunity for 12 early career researchers and physician-scientists in Southeast Asia.

Participants will attend a week-long training event in Mumbai, India featuring hands-on laboratories and cutting-edge lectures led by distinguished experts, providing invaluable insights into the latest advancements in the field of Female Contraception. We're removing barriers to participation by offering selected applicants a **fully-funded package**, covering all expenses related to travel, accommodation, and program participation. Seize this opportunity to expand your knowledge, hone your skills, and connect with peers and mentors in a supportive and stimulating environment.

Apply today or share this **flyer** with someone you think would benefit from this special opportunity. **The deadline to apply is Sunday, August 18, 2024.**

Rising Stars Nominations Open!

Do you know an up-and-coming member of the SSR community who is making an impact in their field? SSR and the SSR Virtual Education Committee encourage you to nominate (self-nominations are welcome) early career independent

investigators (Assistant Professor or equivalent) to participate in our upcoming Rising Stars in Reproductive Biology webinar series! Self-nominations are welcome.

This series is designed to introduce and highlight research from new independent investigators to the SSR membership and broader reproductive biology research community. If you have any questions please email membership@ssr.org.

BIOLOGY OF REPRODUCTION

BOR Announces Expanded Scope

SSR's Biology of Reproduction journal has expanded its scope and welcomes your submission! As a reminder, current SSR members publish their work for free with BOR.

BOR publishes high-quality research that provides mechanistic insight into animal reproduction, reproductive diseases, and embryonic development. Descriptive manuscripts that contribute substantial and important new information may also be appropriate. We welcome submissions on topics including but not limited to: reproduction in mammalian and non-mammalian species; biology of reproductive organs and tissues; hypothalamic-pituitary-gonadal axis; pregnancy; contraception and reproductive technologies; reproductive immunology; reproductive microbiomics; cancers of the gonads, accessory glands, and reproductive tracts; and reproductive toxicology. Submissions that focus on, or relate to, domestic livestock models and human reproduction are encouraged.

Studies of breast cancer, clinical meta-analyses, clinical case studies, randomized controlled trials, or studies on botanical mixtures are outside the scope of BOR.

Learn more about the journal and submission guidelines [here](#).

BOR Recognizes Trainee Reviewers of the Year

BOR thanks the Trainee Reviewers of the Year for 2024. Congratulations to our award winners:

- Jordana Bloom
- Sneha Mani
- Sudeshna Tripathy
- Alukkal Vidyadharan

INDUSTRY NEWS

FASEB Fellows for the Future

FASEB is accepting applications for its inaugural **Fellows for the Future** cohort. This new initiative is a cohort-based initiative designed for early-career researchers from historically excluded groups. This program offers mentoring, community support, and leadership training to help fellows develop activities that promote diversity and inclusion within their

respective FASEB member societies. Beyond their role as agents of cultural change, the fellowship also aims to create pathways for these researchers to advance into leadership positions within their professional society.

Visit [Fellows for the Future](#) to learn more about eligibility requirements. Applications are due **August 16**.

Questions? Contact diversity@faseb.org.
