FEDERAL AGENCY DECISIONS ON MEMBERSHIP

Like many of you, the SSR Board continues to monitor the changes in policy, personnel, and infrastructure at major federal agencies (NIH, USDA, NSF, EPA), which fund our member scientists. These changes include termination of currently funded grants, removal of application requests, canceled/rescheduled peer review panels, delayed advisory council meetings, and loss of agency and staff scientist expertise. We are heartbroken for those whose lives have been upended by these recent events at the federal level. We are also concerned about what this means for the sustainability of our field of reproductive science and science in general.

BIOLOGY OF REPRODUCTION EDITOR'S CHOICE SELECTIONS

METTL7A Improves Bovine IVF Embryo Competence by Attenuating Oxidative Stress

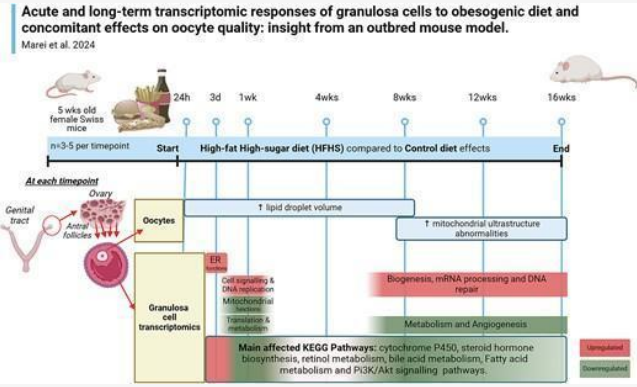

Authors from the University of Florida describe how a molecule acts in the pre-implantation period to attenuate oxidative stress that enhances embryo development to the blastocyst stage and subsequent pregnancy in cattle. [Read More](#)

Acute and Long-Term Transcriptomic Responses of Granulosa Cells to Obesogenic Diet and Concomitant Effects on Oocyte Quality: Insight From an Outbred Mouse Model

Work from University of Antwerp demonstrates that granulosa cells undergo acute stress responses within a few days on

an obesogenic diet, inhibiting retinol metabolism, and bile acid, fatty acid, and steroid hormone synthesis pathways after long-term exposure, with late oocyte mitochondrial defects. [Read More](#)

SSR 2025 Annual Meeting

Uniting Scientific Disciplines for Breakthroughs in Reproduction

Washington, D.C. • July 29 – August 1, 2025

Registration is now open for the **2025 Annual Meeting** which will be held in Washington, D.C., from Tuesday, July 29th to Friday, August 1st. This year's theme, "Uniting Scientific Disciplines for Breakthroughs in Reproduction," promises to inspire collaboration and innovation across our field.

[Submit Abstract](#)

The 2025 Program Committee is now [accepting late-breaking abstracts](#) for the [SSR 58th Annual Meeting!](#) **The deadline to submit is Thursday, May 15, 2025.** The 2025 late-breaking submissions are for in-person, poster presentations only and are not eligible to be considered for awards or oral presentation. You must be available to attend the conference to present.

Please note that you will be required to upload a PDF of your full abstract, so please take time to review the [Abstract Example & Guidelines](#), as it must match the example provided.

[Abstract Submission FAQs](#)

A banner for the SSR 58th Annual Meeting. On the left, a circular image shows the Jefferson Memorial in Washington, D.C., with cherry blossoms in the foreground. A blue circle with white text reads "SSR 58th ANNUAL MEETING". A larger green circle contains the text "Uniting Scientific Disciplines for Breakthroughs in Reproduction" and "July 29–August 1, 2025 Marriott Marquis Washington D.C. Washington, D.C.". On the right, the SSR logo (a green and blue circle) is above the text "SSR Society for the Study of Reproduction". The main text "Annual Meeting Sponsorship Opportunities" is in white and green. A green button with a white arrow and a mouse cursor icon says "Click Here to Become a Sponsor".

SOCIETY UPDATES

Check out the latest work from your colleagues [HERE](#)

As an SSR member, *Biology of Reproduction* is *your* journal! BOR is pleased to continue to offer free publication with standard license for SSR members in 2025. By eliminating standard page charges for members, our goal is to make the publication process more accessible and seamless for you. As always, SSR members who wish to publish with an open

access license are eligible for a discounted member rate. More information on publication charges is available on our [website](#). As the official journal of SSR, we look forward to seeing our members' work in the pages of BOR this year!

2025 Board of Elections — Now Open

The SSR Elections are underway – did you cast your vote? You should have already received an email with your username, access code, and a [link](#) to vote. If you have not received your ballot or have any questions, please contact administrator@ssr.org. Ballot information will be contained in an email from noreply@eballot.com.

The ballot will close on **May 9 at 11:59pm EDT**.

COMMITTEE UPDATES

WinRS Committee

SSR's Women in Reproductive Science, Diversity, and Trainee Affairs committees have developed a small grants program for SSR Members with young children to help offset the costs of childcare during the annual meeting.

At a time in your career when attending meetings can be most beneficial, early-career scientists often struggle to balance family care needs, budgets, and care logistics. In response to these challenges, SSR is offering grants to help partially offset childcare costs to attend the annual meeting in Washington, D.C.. The SSR will be providing up to ten grants of \$500 per family.

Virtual Education Committee

Help shape the upcoming annual **Experimental Methods and Techniques in Reproduction webinar series!**

To make this year's series the best yet, we are asking for your input. We're actively seeking speaker nominations, and we value your expertise and insights on who would bring the most valuable and cutting-edge knowledge to our virtual platform.

Submission Deadline is Friday, May 9th

Diversity Committee Spotlight

Meet Dr. Yulian Zhao

Written by Dr. Yulian Zhao (SSR Diversity Committee) in honor of the Asian American and Pacific Islander Heritage Month.

May is an Asian American and Pacific Islander Heritage Month. The SSR Diversity Committee is participating in this celebration. For this, Dr. Yulian Zhao (member of the SSR Diversity Committee) interviewed Dr. Dr. So-Youn Kim, Associate Professor in the Department of Obstetrics and Gynecology at the University of Nebraska Medical Center. Enjoy the reading.

FUNDING & GRANT OPPORTUNITIES

Emerging Investigator Grant Award

The Society for the Study of Reproduction (SSR) [Emerging Investigator Grant Award](#) program is now open. The purpose of these grant awards is to support early-stage investigators with seed grants that will generate valuable preliminary data. As a global society whose mission is to advance the science of reproduction, fertility, and development for the benefit of humans and animals, the SSR welcomes proposals from all countries and on all reproduction-related subject areas.

Proposals are due by May 30, 2025 by 5 PM EDT.
